

University of Colorado at Boulder

# Presenting the Sustainable Practices Series: *It's more than your future.*

## Short Courses in Sustainable Practices - Fall 06

*Featuring Bill Wallace, Hunter Lovins and Solar Energy International*

### Introduction to Solar Electricity

**Solar Energy International**

**October 28 - 30, 2006**

This noncredit short course will introduce students to photovoltaic (PV) technology. It will feature hands-on lab exercises and is designed for the beginner who wants to use PV or for those seeking employment in the solar industry.

2.1 Continuing Education Units available.

.....  
*Solar Energy International has served students from all 50 states and 55 countries.*

The Division of Continuing Education and Professional Studies in concert with academic units at the University of Colorado at Boulder is developing a credit certificate in Sustainable Practices. Stay Tuned!

### The Application of Sustainable Development Principles to Engineering Projects

**Bill Wallace**

**Wallace Futures Group, LLC**

**November 18 - 19, 2006**

Delivering engineering projects that truly contribute to sustainability requires new knowledge and new approaches to design and construction projects. This noncredit short course presents the business case for sustainability and will cover the social and environmental challenges facing managers today. Students will also be exposed to real-world case studies of companies and communities implementing sustainable strategies.

1.1 Continuing Education Units available.

.....  
*Bill Wallace is founder of Wallace Futures Group, LLC, Chair of Engineers Without Borders - USA and author of "Becoming Part of the Solution: The Engineer's Guide to Sustainable Development".*

### Natural Capitalism: Key to Competitive Advantage

**Hunter Lovins**

**President Natural Capitalism Solutions**

**December 2 - 3, 2006**

Successfully managing a company or agency in today's world requires an understanding of the basics of social and environmental sustainability. This noncredit short course presents the business case for sustainability and will cover the social and environmental challenges facing managers today. Students will also be exposed to real-world case studies of companies and communities implementing sustainable strategies.

1.4 Continuing Education Units available.

.....  
*L. Hunter Lovins is the founder of Natural Capitalism, Inc. and Natural Capitalism Solutions. She co-founded the Rocky Mountain Institute, and co-authored several books, including "Natural Capitalism".*

**CAETE**

Center for Advanced Engineering  
and Technology Education

A partnership between the College of Engineering and Applied Sciences and the Division of Continuing Education and Professional Studies.
